Integrates with **GAfE** to Quickly Set
Filtering Profiles

100% Cloud-Based,
No-Proxy Filtering

Zero-Touch for
Easy
Deployment

Built for 1:1 Chromebook Initiatives by
a PK-12 Technology Expert

Talk to us about any of your district's Internet filtering needs.

AnywhereFilter.com

Mobile Filtering with BASCOM Smart Access Technology™

- Minimizes response time and bandwidth usage
- No-proxy filtering delivers fast communication since traffic doesn't go through the district's network
- Supports productive learning without over-blocking
- Performs intelligent site evaluation to deliver appropriate educational sites
- Prevents students from bypassing the filter

Filtering Built for Schools

- Integrates with the Google Management Console for zero-touch, no-proxy filtering of Chromebook™ notebooks
- Supports YouTube for Schools
- Includes educational features and built-in reporting
- Enforces SafeSearch (including cached sites and images)

Simple Management, Scalable, and Super Easy to Use

- Quickly assigns unique filter policies based on OUs, groups or user IDs
- Easy to use, cloud-based console
- Scalable to meet your needs
- No hardware
- For Chromebook notebooks, iPad® and other iOS devices, Windows® and OS X® computers

**Easily integrates with your existing filter
or deploys as a standalone solution.**
